To whom it may Concern

RE: Dr. Stephen Ochieng Odock-Full member of OMSK

This is to confirm that Dr. Stephen Ochieng Odock of membership number M15036 is a full member of Operations Management Society of Kenya (OMSK). OMSK is a Kenyan network of academics and professional practitioners with common interest in the establishment and continuing development of Operations Management (OM) field. OMSK intends to establish links (local and global) through which members can share ideas, knowledge, and experience to bridge the gap between research and practice and create appropriate harmony.

Operations Management entails innovation, productivity, business processes and metrics, quality management, performance management and operations strategy to achieve excellence as key to competitiveness in manufacturing and service organizations, private or public. OMSK activities cover a broad range of interests and applications. The association endeavors to provide a forum to identify and disseminate the latest thinking and research as well as exploring current issues to set the agenda for Kenya in OM. Its main objectives are: Professionalize operations management; Carry out continuous training for practitioners; Build global networks and Accelerate economic growth by leveraging on the power of operations management.

Yours sincerely,

Prof. James M. Njihia
Chairman
