Certificate Details

Diploma in Operations Management

(94%)

Course Details

Operations management is of central importance to any organisation, whether they are manufacturing companies producing physical products or organisations offering services, or whether the organisation is in the private, public or voluntary sectors. This online course reviews a wide variety of topics from the development of operations management, to the role of the operations manager, the transformation model, planning and scheduling methodologies and practices, and inventory and quality management. This course will give learners a thorough understanding and knowledge of operations management and its organisational and managerial applications. The course is ideal for learners working in organisations, or who would like to work in organisations, and who want to contribute to the development of the organisation in the area of operations management.
